PROFILE

I am a software engineer with 8 years of professional experience in software engineering, web and mobile development, information systems, and systems analysis and design.

I have the ability to examine IT systems and processes and recommend solutions.

I am a tech enthusiast, very passionate, dedicated to work to continuously develop, implement and adopt new technologies to maximize development, efficiency and produce innovative applications to solve most of the world's problems.

HIGHLIGHTS

- Proficient in Android architecture, design and model, data structures, testing and debugging.
- Proficient in web development architectures (Model View Controller (MVC)), frameworks and technologies.
- Known for writing well documented system requirements and specifications documents.
- Known for writing efficient, maintainable and reusable code.
- Proven effective project team lead.
- Self-motivated and well-organized team player.
- Possess exemplary skills in written software development documentation.

SKILLS

Technical – HTML5, CSS3, JavaScript, PHP, Java, Dart, Python, ASP.NET, Microsoft SQL, MySQL, Oracle, PostgreSQL.

Software – Microsoft Visio, Microsoft Project, Database Management Systems (DBMS), Version Control Systems (VCS), Collaborative tools, Android Studio, Eclipse, Visual Studio Code, Sublime Text Editor IntelliJ IDE, Postman, Insomnia.

EXPERIENCE

June 2019 - Date

WENOTEK

Senior Software Engineer

- Built Robust Application Programming Interface (APIs) for both mobile and web consumption using the Laravel framework.
- Built proof of concept minimum viable products (MVPs) using the Flutter framework.
- Trained over 300 youths into building mobile apps using the Flutter framework under the National Youth Authority (NYA) as part of the NYA Mobile App Development Training Program.
- Develop an information system software requirement specification document for developers to build new and existing solutions.

September 2017 – May 2019

Ghana India Kofi Annan Centre of Excellence in ICT

Software Developer (Research, Mobile, Web)
